

My Visit to the Eye Doctor

SUNY COLLEGE OF OPTOMETRY
UNIVERSITY EYE CENTER®

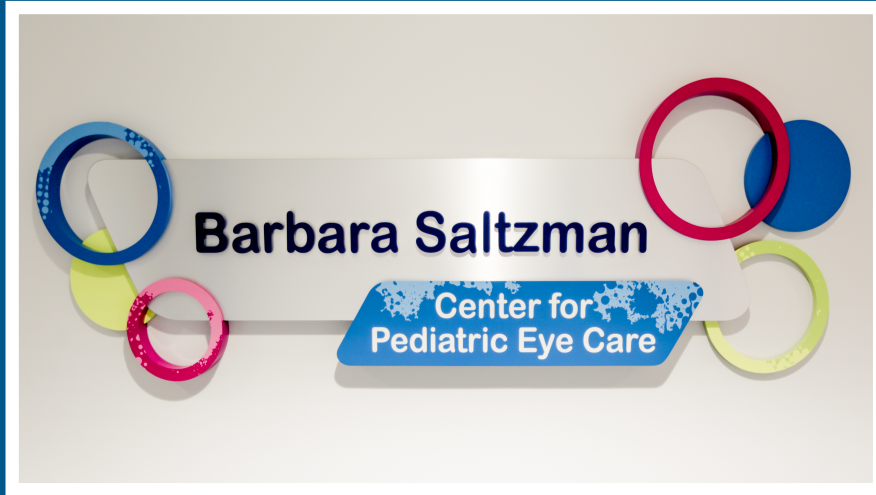

Welcome to the University Eye Center.

Hi!
My name
is Jillian.

Come with me to
get an eye exam at
the University Eye
Center!

Here we are at
the Pediatric
Center!

I wait my turn
in the family
waiting area.

Time for my exam!
I walk to the exam
room when the
doctor calls my
name.

1

The doctor and
my mom talk
about me.
The doctor asks
me some
questions too.

2

I cover my eye
and tell the doctor
what I see when I
look at a screen.

3

Then the eye doctor asks me to read letters on a card up close.

4

I look at a small picture while the doctor watches how my eyes move.

5

I wear magic
glasses and look for
hidden pictures!

6

I tell the doctor
what shapes I see
and use a brush to
trace over the
shapes.

7

I look at a toy and
tell the doctor how
many fingers I see
in my side vision.

UNIVERSITY EYE CENTER®

8

The doctor shines a light while I look through small windows to see if I need glasses.

9

Some kids look through special windows and tell the doctor what they see.

10

I get to try on
special glasses
that help me see
better!

11

The doctor shines
a light to see that
the front part of
my eyes are
healthy.

12

Some kids put their chin in a special microscope so that the doctor can see that the front part of their eyes is healthy.

13

The doctor tickles
the front part of
my eye and says I
must keep my
eyes open wide.

14

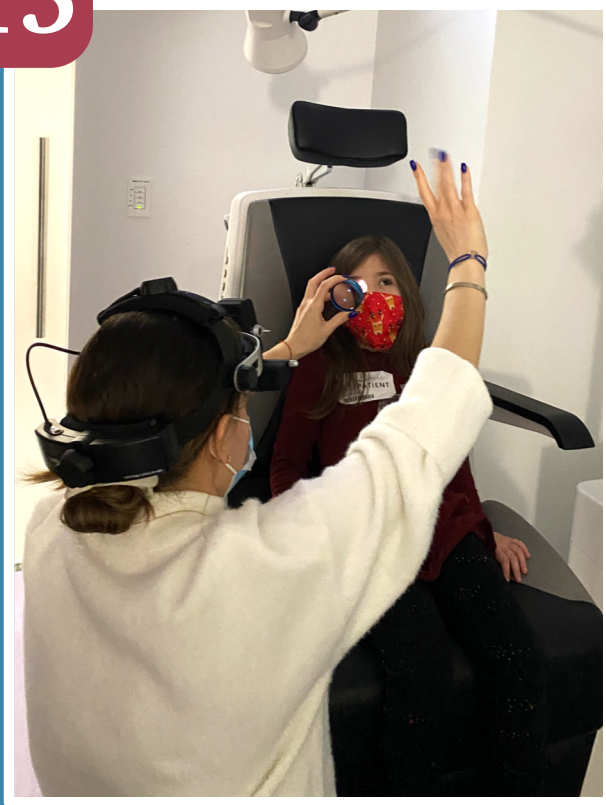

After the doctor puts special drops into my eyes, I get to wait in the Chill Room and read a book in the fun chair!

UNIVERSITY EYE CENTER®

15

The doctor shines the light again to make sure that the back of my eyes are healthy.

16

This is where kids can get glasses if they need them—there are many colors and styles!

17

I can choose a
fun sticker to
take home!

18

My doctor gives me sunglasses to wear after my eye exam, and I say goodbye until my next visit!
